**Public Utility Commission of Texas****Five-Year Report****Required by 16 Texas Admin. Code § 25.97(e)**RECEIVED
2020 MAY -1 AM 10:32
PUBLIC UTILITY COMMISSION
FILING CLERK**PROJECT NO.** 50594**AFFECTED ENTITY:** Brownsville Public Utilities Board**General Information**

Pursuant to 16 Texas Admin. Code § 25.97(e)(1), not later than May 1 every five years, each affected entity that owns or operates overhead transmission facilities greater than 60 kilovolts must submit this report. The first report must be submitted not later than May 1, 2020.

Instructions

Answer all questions, fill-in all blanks, and have the report notarized in the Affidavit.

Affidavit

A representative of the affected entity must swear to and affirm the truthfulness, correctness, and completeness of the information provided by attaching a signed and notarized copy of the Affidavit provided with this form.

Filing Instructions

Submit four copies (an original and three copies) of the completed form and signed and notarized Affidavit to:

Central Records Filing Clerk
Public Utility Commission of Texas
1701 N. Congress Avenue
P.O. Box 13326
Austin, Texas 78711-3326
Telephone: (512) 936-7180

Y900

1. Historical five-year reporting period: 01/01/ 2015 - 12/31/2019

What percentage of overhead transmission facilities greater than 60 kilovolts did you inspect for compliance with the National Electric Safety Code (NESC) relating to vertical clearance in the historical five-year reporting period?

Within the past five-years, BPUB has inspected 100% of overhead transmission facilities that are rated greater than 60 kilovolts. The annual inspection includes verification that overhead transmission facilities are compliant with vertical and horizontal clearance guidelines of the NESC.

2. Future five-year reporting period: 01/01/2020 - 12/31/2024

What percentage of overhead transmission facilities greater than 60 kilovolts do you anticipate you will inspect for compliance with the NESC relating to vertical clearance during the future five-year reporting period beginning on January 1 of the year in which this report is submitted?

BPUB anticipates inspecting 100% of the transmission facilities that are rated greater than 60 kilovolts during the future five year reporting period. The inspections will include verification that overhead transmission facilities are compliant with vertical and horizontal clearance guidelines of the NESC.

Affected Entity: Brownsville Public Utilities Board

PROJECT NO. 50594

AFFIDAVIT

I swear or affirm that I have personal knowledge of the facts stated in this report or am relying on people with personal knowledge, that I am competent to testify to them, and that I have the authority to submit this report on behalf of the affected entity. I further swear or affirm that all statements made in this report are true, correct, and complete.
